

Ronald McDonald House Charities UK 9th Manchester Gala Dinner

Ronald McDonald
House Charities™
United Kingdom

23 November 2018

The Point

600 guests

Event Overview

In November 2018, Ronald McDonald House Charities UK hosted their annual Gala Dinner at Emirates Old Trafford, to fundraise for the charity.

The Brief

Ronald McDonald House Charities UK needed a venue that boasted a large and impressive event space that could easily hold their 600 guests, and provide a spectacular backdrop for a high profile event.

The Point is the largest event space at Emirates Old Trafford and perfect for large events such as gala dinners, awards, mini exhibitions etc. The venue had enough space to accommodate the guests and included room for a dancefloor, the evening's entertainment and a charity auction.

RMHCUK also worked closely with media company Stanley Road Film and Media, and Framework Events, to deliver the charity's third annual dinner at Emirates Old Trafford, to theme the event space and transform it into a Broadway spectacular.

It was important for the charity that the venue was in an ideal location for guests to get to. Emirates Old Trafford is located just three miles from the city centre, offering excellent transport links as well as on-site parking and accommodation in the on-site four-star Hilton Garden Inn, which was a must for RMHCUK.

The Result

"Victoria was extremely supportive with the menu options and helped to ensure our needs were met. On the day itself, Ruth and Stuart were excellent, making sure we had everything we needed all the while with an upbeat attitude, putting our minds at ease."

"Working with team at Lancashire Cricket has been a huge pleasure over the last three years which is why we have returned with our event. They are highly professional and personable and having worked with them several times they understand our visions. When we have had concerns, these have been addressed appropriately and we are extremely confident in their abilities. Our guests had a fantastic time this year, with many saying it was the best one yet!"
